

PRODUCT FOCUS - CAT D6 XE

The new Cat D6 XE is the worlds first high drive electric drive dozer, offering our customers the highest levels of fuel efficiency, productivity and ease of operation. With next generation electric drive technology there are no gears to shift, giving the operator the experience of constant power to the ground, resulting in greater agility and faster cycle times.

- **Fuel Efficiency** - Electric drive increases fuel efficiency by **35%** when compared to the traditional D6 Dozer.
- **Productivity** - Standard CAT connect features offer up to **50%** more productivity. Tech features include CAT Grade with 3D and slope assist.
- **Ease of operation** - No need to worry about shifting gears to get the most from the machine – just choose your ground speed and go. The dozer automatically optimizes based on load for greatest productivity and fuel efficiency.
- **3D GPS** - Cat GRADE with 3D has been updated to give you even more speed and accuracy without position sensing cylinders. The factory integrated system has a new, friendly 10-inch (254 mm) touchscreen so it is easy for operators to pick up quickly. Smaller antennas are integrated into the cab roof for even better protection. AutoCarry™ is included to automate blade lift for more consistent blade loads and less track slip.

Engine - Diesel Tier 5

Transmission - Electric

Blade type - VPAT 6 way

Blade capacity - 5.7m³

Machine weight - 22.2t

Machine width - 3312mm

Telematics - AEMP 2.0

Ground pressure - 35 kPa

Factory fitted 10" rear view camera and slope control interface.
